- (2) All participants involved must adhere to the principles of fairness and respect – according to the IIHF-integrity program and the IIHF Integrity Book.
- (3) If these basic principles are violated or in the case of actions against the integrity of the sport, against the League issued rules or against IIHF-integrity, it is the duty of the Alps Hockey League Disciplinary Commission to investigate and, if required, impose sanctions on the basis of the penalty catalogue.
- (4) It is the responsibility of the Head Coach to maintain the sportsmanship and integrity of his coaching and playing staff at all times. The Senate may assess additional fines and/or suspensions for any offense committed during the course of a game or any aftermath thereof by a player, goalkeeper, trainer, manager, coach or non-playing Club personnel or Club executive, whether or not such offense has been penalized by the referee. In specific cases where the Alps Hockey League Disciplinary Senate feels a team or player or situation is subject to a standard set forth by the coaching staff that is not in the best interest of integrity, sportsmanship or safety of the game, the Head Coach will assume responsibility and be subject to fines and/or suspensions This is inclusive of a team's style/behavior within a game (repetitive situations against the opposing team), demanding a player play a specific role within a game that is deemed detrimental, cases where examples are set for a future game or situations where it is felt a 'payback message' is demanded, that intrude in the safety or well-being of the opposing team or game integrity.

§ 1 Preamble

During the course of each season the emergence of new situations arise. In certain situations, we cannot guarantee with certainty the situation has support from the IIHF Rulebook or IIHF Casebook. In addition, the Alps Hockey League governing body, in cooperation with the Department of Player Safety (DOPS), has developed specific rule amendments.

The purpose of the Alps Hockey League Case Book is to clarify the interpretation of specific rules and in specific cases, a modification to the existing IIHF rule. This document serves as an official release of the interpretation and governing rules for the respective Alps Hockey League season. The interpretations set forth in the Alps Hockey League Case Book will replace or in specific cases, supersede the ruling that is currently within the IIHF Rule Book. For all rules not mentioned in the Alps Hockey League Case Book, the official IIHF Rulebook in its current version and IIHF Casebook will serve as the official ruling.

The working methodology will continue to be that when a new situation arises, or a new interpretation has been accepted, the Alps Hockey League Case Book will be updated. Each rule update will be sent by email, is available on the Alps Hockey League web site and in print. The new rule interpretation or change will have an “effective of” date in the upper left-hand corner and remain in effect the remainder of the hockey season. It is each on-ice official and team official’s responsibility to update the information when updates arise.

Referees are authorized to call all penalties provided for in the rule book from the start of warm-up time until 30 minutes after the end of the game. In the case of incidents outside of this period, the main referee must submit a report to the Disciplinary Senate.

player change(s) may be accepted upon the approval, by notification, to an Alps Hockey League representative. Once the game has begun, it is no longer possible to enter or make a change of players on the official score sheet.

- (2) The team managers authorized by each Alps Hockey League club are required to provide the home club's scorekeeper with a team roster using the lineup form at least 75 minutes prior to the start of each game. The roster must be filled out completely and accurately, and it must be signed and dated by the team manager.

In this context, it is also necessary to refer to the IIHF Rulebook (see also the bylaws in the Annex). Should the team manager fail to submit the team roster, the Alps Hockey League | ICE Young Stars League & ICE Juniors League club will not be able to claim that the entries on the official game sheet are inaccurate or incomplete.

- (3) Each player who is not listed on the official game sheet will be considered ineligible to play, with the consequence of a game points allocation pursuant to Fundamental Rules Part II §5 (6) d)

§ 8 Facial Protection & Mouth Guards

- (1) All players participating in the Alps Hockey League must properly wear a mouth guard.
- (2) It's recommended that goalkeepers wear proper mouth protection, but not mandatory.

When player(s) do not adhere: One team warning will be given, and player will be instructed to not participate in the game until proper protection is worn.

After a team warning has been issued by the referee and the same/or different players participate in play without proper mouth protection, the referee will issue a 10-misconduct penalty, as per IIHF Rule - Illegal or Dangerous Equipment.

During the course of play, if a player who entered the ice with a mouth guard loses his mouth guard, he may continue play until the 1st stoppage of play or has made a line change during play.

If the loss of a mouth guard during play becomes repetitive, the player(s) will receive 2-minute penalty for Unsportsmanlike Conduct and a 10-minute Misconduct.

The Alps Hockey League has requested the referees to enforce this rule on every skater. A club not adhering to the rule may have multiple misconduct penalties, leading to not enough players to fulfil a proper line up. In such a case, the game will be deemed over and recorded as a loss to the respective team.

- a) Players born after December 31, 1974 must wear at least a visor.

- b) All players born in 2005 or later must wear IIHF-approved full-face masks (full visors) and a mouth guard/mouthpiece. The visor must extend down to cover the player's eyes and the lower edge of the player's nose. Full-face masks must be hinged. During the game, full-face masks and chin straps must be worn closed. Full-face masks must be designed in such a way that neither the puck nor a stick blade can penetrate the mask.
- c) All junior players born 2005 or later need to wear complete neck and throat protection.
- d) Goalkeepers are not permitted to wear plastic full-face visors.

See also IIHF Sport Regulations

A visor is attached to the helmet and must extend down to cover the eyes and nose in its entirety. It must be fixed to the helmet along the sides such that it cannot be flipped up.

Skaters are not allowed to wear a colored or tinted visor.

Department of Player Safety (DOPS) procedure:

In the event the Alps Hockey League Department of Player Safety (DOPS) identifies a player wearing his visor in a manner deemed dangerous (i.e. angled up), the player will receive the following supplementary discipline:

- Warning
- Fine - 50 Euros for 1st time offender
- Repeat Offender – the fine will subsequently double (x2) for each repeat incident. (i.e. 1st time-50 Euros, 2nd time-100-Euros, 3rd time-200.00 Euros, ...)

§ 9 Television Timeouts, in effect for televised or streamed games (upon request)

In the championship of the Alps Hockey League in every game and each period there will be one Commercial Break for 40 seconds.

Commercials may only be granted when teams are at equal strength when a stoppage in play occurs (3 on 3, 4 on 4, 5 on 5, or 6 on 6). The determination of equal strength is the manpower on the ice at the time of the whistle. Therefore, if Team A is a man down, and a penalty is called on Team B, a Commercial Break is not allowed. In addition, a Commercial Break is not permitted after an Icing call.

Commercial Breaks will be taken at the first whistle after the following time on the game clock as it counts down:

Commercial (Power) Break 10:00

In the event that a Commercial Break is not taken during the prescribed time slot, because of penalties or the flow of the game, the missed Commercial opportunity will be made up at the first whistle in the next Commercial Break time slot (except icing).

The only exception is when a five minute (non-coincidental) major penalty is called on a player. In this situation the Commercial Break must be taken at this whistle and will be administrated by the Commercial coordinator in the normal fashion (except icing).

In case there is a Commercial Break scheduled depending the regulation and a goal has been scored, the Commercial Break will be postponed upon the next break (except icing). In this case the equal strength needs to be required once again.

(1) Procedure:

- A Commercial coordinator will be nominated by the Home Team.
- At the whistle a red signal lamp will be immediately illuminated by the Commercial coordinator at the scorekeeper's bench, signaling that the Commercial Break is in progress.
- The Commercial coordinator immediately starts his watch. The time which is left in the break will be displayed separately (DIN A3 Sheet) with the "Commercial Break Plate" by the Commercial coordinator:
 - Break / 40 seconds
 - 20 seconds
 - 5 seconds
- One linesman places the puck on the ice where the next face-off will take place while the referee proceeds quickly to the scorekeeper's bench. The players proceed to their respective benches while the other linesman stands between the player benches.
- With twenty-seconds left in the break, the Commercial coordinator cues the referee by showing the "Commercial Break Plate" to blow the whistle to indicate that the players proceed to the face-off spot.
- With five seconds left in the break the back linesman gets a cue from the Commercial coordinator by the "Commercial Break Plate" to blow the whistle to drop the puck.
- The puck should drop at the 40-second mark.

The only permitted exceptions to additional Commercials being taken during a time slot are:

- player injury,
- damage and/or repair to the playing surface (glass, boards, net),
- any abnormal delay which may require excessive time to sort out.

The procedure is the same as mentioned above. From side of the TV management any additional Commercial Breaks are not permitted.

No Commercial Breaks will be taken in the final thirty seconds of the first and second periods, and the final two minutes of the third period, there are no exceptions. No Commercial Breaks will be granted in overtime and penalty shoot-out.

(2) Team Considerations:

Teams should be aware of the following during these Commercial stoppages:

- Goalkeepers will be allowed to go to their respective player's bench.
- Attention IIHF Rulebook following a stoppage of play for an icing infraction, the offending team is prohibited from making any player change until play has resumed.
- Teams are allowed to change lines once the referee blows the whistle signaling the teams to return to the face-off with 20 seconds remaining in the Commercial stoppage, please see also IIHF-Rulebook.
- These line changes will follow the same protocol as a normal line change during a stoppage of play.
- Teams will be allowed to request their official time-out from the referee once they are called back to the ensuing face-off by the referee's whistle with 20 seconds remaining in the Commercial stoppage.
 - The referee will immediately advise the official scorekeeper of the time-out request and the official time-out will follow the normal protocol.

§ 10 Overtime Period

- (1) **Overtime – Regular-season** - If, at the end of the three regular twenty (20) minute periods, the score shall be tied, each team shall be awarded one point in the league standings. The teams will then play an additional overtime period of not more than five minutes with the team scoring first declared the winner and awarded an

additional point. The overtime period shall be played with each team at a numerical strength of three skaters and one goalkeeper. Additional penalties to be assessed consistent with the rules in regulation time.

The overtime period will commence following a 1-minute break. The ice will not be dry scraped at this break. The players will remain at their respective benches. The teams will not change ends for the overtime period (defend same goal as in the 3rd period). Goalkeepers may go to their respective players' benches during this rest period. However, penalized players must remain on the penalty bench. Should a penalized player exit the penalty bench, he shall be returned immediately by the officials with no additional penalty being assessed, unless he commits an infraction of any rule.

- (2) **Overtime – Regular-season – Extra Attacker** - A team shall be allowed to pull its goalkeeper in favor of an additional skater in the overtime period. However, should that team lose the game during the time in which the goalkeeper has been removed, it would forfeit the automatic point gained in the tie at the end of regulation play, except if the goalkeeper has been removed at the call of a delayed penalty against the other team. Should the goalkeeper proceed to his bench for an extra attacker due to a delayed penalty call against the opposing team, and should the non-offending team shoot the puck directly into their own goal, the game shall be over and the team that was to be penalized declared the winner.

Once the goalkeeper has been removed for an extra attacker in overtime during the regular season, he must wait for the next stoppage of play before returning to his position. He cannot change “on the fly.” If he does, a bench minor penalty shall be assessed for having an ineligible player.

- (3) **Overtime – Regular-season – Penalties** – When regulation time ends and the teams are 5 on 3, teams will start overtime 5 on 3. Once player strength reaches 5 on 4 or 5 on 5, at the next stoppage of play, player strength is adjusted to 4 on 3, 4 on 4, or 3 on 3, as appropriate. When regulation ends and teams are 4 on 4 teams will start overtime 3 on 3. If at the end of regulation time teams are three skaters on three skaters, overtime starts three skaters on three skaters. Once player strength reaches five skaters on four skaters or five skaters on five skaters, at the next stoppage player strength is adjusted to four skaters on three skaters, four skaters on four skaters, or three skaters on three skaters, as appropriate.

At no time will a team have less than three players on the ice. This may require a fourth and/or fifth skater to be added in the event penalties are assessed.

If a team is penalized in overtime, teams play four skaters against three skaters. If both teams are penalized with minor penalties at the same stoppage of play, with no other penalties in effect, teams will play three skaters against three skaters. In

overtime, if a team is penalized such that a two-man advantage is called for, then the offending team will remain at three skaters while the non-offending team will be permitted a fifth skater. At the first stoppage of play after the two-man advantage is no longer in effect, the numerical strength of the team will revert back to either four skaters on four skaters, four skaters on three skaters, or three skaters on three skaters situation, as appropriate.

- (4) **Overtime – Alps Hockey League Non-Elimination Playoff Games** – If at the end of the three regular twenty minutes periods of a non-elimination game and the two playing teams are tied, the teams will then play a ‘sudden death’ overtime period(s) of not more than 20 minutes with the team scoring first declared the winner.

The teams shall take a normal intermission (fifteen minutes) and resume playing twenty-minute periods (with a normal intermission each subsequent OT period), changing ends for the start of each overtime period. The ice is to be resurfaced at the end of regulation time and after each additional 20-minute period.

The 1st 20-minute overtime period shall be played with each team at a numerical strength of five skaters and one goaltender.

The 2nd overtime period and remainder of overtime until a team scores, will be played with each team at a numerical strength of three skaters and one goaltender.

- (5) **Overtime – Alps Hockey League Elimination Playoff Games** - When a game is tied after three twenty (20) minute regular periods of play, the teams shall take a normal intermission (fifteen minutes) and resume playing twenty (20) minute periods (with a normal intermission each subsequent OT period), changing ends for the start of each overtime period. The team scoring the first goal in overtime shall be declared the winner of the game. The ice is to be resurfaced at the end of regulation time and after each additional 20-minute period.

(6) **Penalty-Shot Shootout Procedure**

If following the completion of regulation time and the score of the game is tied, the teams will then play an overtime period with a maximum duration and number of players as specified in the Alps Hockey League Case Book with the team scoring first declared the winner.

If no goal is scored in the overtime period, then the Alps Hockey League Penalty-Shot Shootout procedure will apply. The following procedure will be utilized:

- a) Shots will be taken at both ends of the ice surface. The 14-meter-wide longitudinal center section of the rink, between the face-off spots in the neutral and end zones, will not be dry-scraped by the ice-resurfacing

machine prior to the Penalty-Shot Shootout during the time required to organize the program accordingly.

- b) The procedure will begin with three different shooters from each team taking alternate shots. The players do not need to be named beforehand. Eligible to participate in the Penalty-Shot Shootout will be the four goaltenders and all players from both teams listed on the official game sheet except as specified in article c) below.
- c) Any player whose penalty had not been completed when the overtime period ended is not eligible to be one of the players selected to take the shots and must remain in the penalty box or in the dressing room. Also, players serving penalties assessed during the Penalty-Shot Shootout must remain in the penalty box or in the dressing room until the end of the procedure.
- d) The referee will call the two captains to the referee crease and the home team has the right to choose to shoot first or second.
- e) The goaltenders shall defend the same goal as in the overtime period and may remain at their goal creases while the opposing team is taking a shot.
- f) The goaltenders from each team may be changed after each shot.
- g) The execution of these shots is generally subject to regulations in IIHF-Rulebook.
- h) The players of both teams will take the shots alternately until a decisive goal is scored. The remaining shots will not be taken.
- i) If the score is still tied after all shots are taken by each team, the procedure shall continue with a tiebreak shoot-out, using the same or new players. The team that shot second in the first three penalty-shots will start first in the tie-break shots. The game shall be finished as soon as a duel of two players brings the decisive result. The same player can be used for each shot by a team in the tie-break shoot-out.
- j) The official scorekeeper will record all shots taken, indicating the players, goaltenders and goals scored.
- k) Only the decisive goal will count in the result of the game. It shall be credited to the team that scored the goal and charged against the team that was scored upon.
- l) If a team declines to participate in the Penalty-Shot Shootout, the game will be declared as a loss for that team and the other team will be awarded 3

points for a win. If a player declines to take a shot it will be declared "no score" for his team.

§ 11 Video Goal Review System (in effect for all teams using VGJ)

The on ice officials have the possibility to check there on ice decision according to the IIHF Rulebook

§ 12 Duration of Penalties | Match

Any incident worthy of a match penalty is to be assessed as a 5-minute major penalty + game misconduct.

§ 13 Abuse of Officials

Physical Abuse of Officials: Game Misconduct Penalty (Match penalty option is replaced by a Game Misconduct and no time penalty)

- (1) A player or team official who deliberately applies physical force in any manner against an on-ice official and is detrimental to the conducting of the game
- (2) A player who swings or physically uses his stick at an on-ice official
- (3) In any manner, attempts to injure or physically demeans an official
- (4) Deliberately applies physical force to an on-ice official solely for the purpose of getting free of such an official during or immediately following an altercation

Automatic Suspension – Process - Immediately after the game in which such game misconduct penalty is imposed, the Referees shall, in consultation with the Linesmen, decide the category of the offense. They shall make a verbal report to the League Director of Hockey Operations immediately after game and a written report to the Director of Hockey Operations in which they may request a review as to the adequacy of the suspension.

Alps Hockey League Categories (Decision made by the officiating team following the game):

- | | |
|------------|--|
| Category 1 | up to 3 games – physically demeans or threatens or applies force solely for the purpose of getting free of an official |
| Category 2 | 3-6 games – applies force without intent to injure |
| Category 3 | 7+ up to lifetime – intent to injure with deliberate action causing injury |

Alps Hockey League Department of Player Safety (DOPS) – in consultation with the affected official and in consideration for the category assessed by the game officials, Alps Hockey League DOPS will make a final determination for the game suspension length.

§ 14 Delay of Game | Player Jersey

Player Jerseys – Players that enter the ice (during a line change), that have their jersey tucked in their pants and/or their back # is not visible, the player must be sent to players bench for an immediate substitution. In the event a player/team does not adhere to the player substitution or uses it as a tactic to delay the game, a 2-minute penalty may be assessed for 'delay of game'. If after a warning (and substitution) a player repeatedly enters the ice with his jersey tucked in, a 10-minute Misconduct will be issued to the player under IIHF – Dangerous Equipment.

§ 15 Diving | Embellishment

Definition – Any player who, at the discretion of the referee, blatantly embellishes (enhances) a fall, a reaction or fakes an injury in attempt to draw a penalty by his action.

DOPS (Department of Player Safety)

Regardless of the call at ice level, DOPS will have the ability to fine players € 50,- in situations where players feign an injury, embellish, enhance or dive within a game. In addition, players that become repeat offenders will be fined € 250,- for each subsequent act. This procedure will be conclusive upon the video footage following a game. The fact a player received a 'Diving' penalty within a game by an on-ice official, does not automatically mean a fine will ensue.

§ 16 Fighting

Referees are provided wide latitude in penalties they may impose under this rule. This is done to enable them to differentiate between the obvious degrees of responsibility of the participants either for starting the fighting or persisting in continuing the fight.

Definition – A player who jostles or strikes an opponent, during game action, after a whistle, or any time during the regular course of a game or a prolonged player confrontation.

- (1) A player involved in a confrontation with an opponent may be assessed a minor, double minor, major or major and automatic game-misconduct penalty.
- (2) All fighting situations (where a 5-minute major is to be called) will be assessed a game-misconduct with the exception of a fight with 2 willing combatants (No automatic game-misconduct shall be assessed if the following criteria are fulfilled):
 - a) The fight is only between 2 willing combatants who are involved in the initial situation with no other player to be involved.
 - b) The fight stopped immediately after the linesmen are in.

- c) After stoppage of the fight, no throwing of punches or resisting officials once the fight is done, players have to enter the penalty bench immediately and without hesitation.

* Any penalty called for fouls committed before the start of the fisticuff/scrum has to be assessed in addition to the penalties which resulted from the altercation.

** A player receiving 2 fighting majors in the same game will be assessed an automatic game-misconduct

Fines and Suspensions – Instigator/Aggressor in final five minutes of regulation time (or anytime in overtime)

- (1) A player who is deemed to be the instigator/aggressor of an altercation in the final five minutes of regulation time or at any time in overtime shall be suspended for one additional game, pending a review of the incident.
- (2) When the one-game suspension is imposed, the coach shall be suspended 1 game – a suspension that will double for each subsequent incident.
- (3) The suspension shall be served unless, upon review of the incident, the Director of Hockey Operations, at his discretion, deems the incident is not related to the score, previous incidents in the game or prior games, retaliatory in nature, “message sending”, etc. This suspension shall be served in addition to any other automatic suspensions a player may incur.

Helmet – No helmet on or removal of a helmet before engaging in an altercation/fight:

- (1) In all circumstances, any player engaging in a fight must have a helmet on and properly fastened. If the player's helmet is not on or is taken off before engaging in a fight, the player(s) will be assessed a 2-minute minor penalty and 10-minute misconduct.
- (2) Helmets that come off in the course of, and resulting from the altercation, will not result in a penalty to either player.

Automatic Supplementary Discipline (DOPS):

- (1) If a player is assessed a fighting major for the 2nd time during the Alps Hockey League regular season, such player is assessed an automatic one game suspension, in addition to any other penalties assessed.
- (2) If a player is assessed a fighting major for the 3rd time or more during the Alps Hockey League regular season, such player is assessed an automatic two game suspension for each additional fighting major, in addition to any other penalties assessed.

- (3) If a player is deemed to be the instigator in any of the fights above the two-game threshold, such player would be assessed an automatic two game suspension, in addition to any other penalties assessed.

Note: If a player is not the instigator, the fighting major is not included in the player's total number of fights.

§ 17 Interference on the Goaltender (Addition to the IIHF Rule Book):

When considering an incident worthy of Goaltender Interference, the 3 main criteria to consider/answer in making the appropriate decision:

- (4) Is the goaltender able to play his position? If he is contacted, does he have time to recover?
- (5) Was the contact initiated by the defensive player or the cause of a player from the opposing team?
- (6) Was the contact made inside (or outside) of the crease? Contact in the blue paint area calls for disallowing a goal.

H | Usher and Security Services

The rules and requirements issued by the competent authority will take priority over the provisions listed below; the Alps Hockey League club must make every effort to ensure a safe and secure environment for conducting Alps Hockey League competitions.

§ 1 Usher Personnel

- (1) The usher and security service must ensure safety and security in the course of the game. In particular, this includes protecting the spectators, the players, the referees, the coaches and club/league officials as well as media representatives.

In this context, it is especially important to consider the special requirements of the often family-oriented audience, as long as no security issues conflict with this imperative. The traditionally peaceful fan culture should also be maintained and encouraged.

- (2) The home club is required to comply with all legal and official regulations regarding the number and deployment of security and rescue personnel.
- (3) All security personnel and ushers must be clearly recognizable as such (i.e., by means of specially colored vests/bibs, jackets, etc.).
- (4) Only appropriately trained usher personnel may be used, with due fulfillment of liability law requirements and insurance requirements.
- (5) Every club needs to use a minimum of professional usher personnel at home games according to the guidelines of the local authorities

§ 2 Protection of Referees

- (1) From the arrival of the Referees at the rink, until their leaving the rink, a security-person has to be stationed directly at the door of the Referee's locker room. This security has to deny access to anyone except for the following: Referees, Referee Attendant, Referee-Supervisor, Point keepers, Alps Hockey League Game Delegate and Director of Hockey Operations.
- (2) Unauthorized persons who enter the Referee's locker room or stay there have to be penalized with a fine by the Alps Hockey League Disciplinary Senate notwithstanding further punishment under the IIHF-rules. The Head Referee has to file an additional report on such an incident.
- (3) The Referees are to be accompanied on their way on and off the ice as well as towards the parking lot by sufficient security personnel to ensure attacks are prevented. The Referees need to be provided with guarded or secured parking spots. The cost for damage occurred in the course of duty at a game will be borne

by the responsible (i. e. the Home) club plus applicable Alps Hockey League disciplinary actions.

- (4) The way for referees towards their locker rooms needs to be guarded in such a way that neither Teams nor spectators can attack them.
- (5) Persons who physically attack the Referees or throw objects at them must be penalized with a general arena ban. Furthermore, the particulars (personal data) of said persons need to be recorded and forwarded to the Alps Hockey League Administrative Office.

§ 3 Protection of the Teams

- (1) The entire locker room area must not be accessible to spectators. Apart from players, team and game officials, only the referee observers and league supervisors have access to the locker rooms.
- (2) The players' path to the locker rooms must be protected in such a way that attacks from the spectators are not possible.
- (3) The players' and penalty box benches must also be protected in such a way that attacks from the spectators are not possible. The players' and penalty box benches must be executed in a technical manner that there is no open space on the backside up to the roofing respectively the height of the back board must be sufficient.
- (4) On the way to and from the ice surface and to the parking lot, the players and coaches must be accompanied by sufficient usher personnel to ensure that attacks are prevented. The players' bus must be provided with a guarded or appropriately protected parking space with direct access to the arena. Players and coaches are advised to use the official from side of the organizer designated entrances and exits. This security issue needs to be secured for the guest team by sufficient usher personnel from the beginning of arrival until departure.

§ 4 Protection of Media Areas

- (1) The sensitivity and the special significance of work carried out in the media areas are to be taken into account when selecting the usher service personnel assigned to these areas.
- (2) The Club must take the necessary and appropriate measures to protect media representatives and media areas and ensure that media representatives can work without disruptions or other disturbances. Attacks from spectators must be prevented. In case of such an incident, the person in question must be identified and penalized.

- (3) The Mixed-Zone and the press conference room must not be accessible to spectators. The home club must ensure that all players and coaches can pass through the mixed zone without contact with the spectator area. After the end of the game, access to the mixed zone must be restricted to media representatives, the media relations officers of the two clubs, the referee observers and league supervisors.
- (4) Wherever possible under the security regulations of the game venue or of the Alps Hockey League, the work of Alps Hockey League's television partners must not be disturbed by usher personnel.

§ 5 Arena Bans

It is at the Alps Hockey League Organization and at the Alps Hockey League clubs discretion to hand out arena bans. In the case of special interest (information about high risk fans or possible risk also for away-games) the Alps Hockey League Club must forward information on a person with an arena ban to the league. The league will then declare a league wide arena ban and will inform the clubs and the ministry of the interior (Fan-Police).

§ 6 Fan-Banners

- (1) Any kind of banners with glorification of violence, bawdy, abusive or racist taunts and any kind of discriminating statements against minority groups or fringe groups are prohibited.

- (4) If a game-delegate or other game-officials reject banners, the security staff has to remove those banners immediately.

§ 7 Flow of Game

Spectators who throw objects onto the ice or attempt to physically harm, spit on, or otherwise attack players or officials must be removed from the arena immediately and penalized with an arena ban pursuant to §5. Moreover, the particulars of the person(s) in question are to be recorded and, in the case of repeat offenses, communicated to the Alps Hockey League Administrative Office. The home team has to take the maximum lengths to ensure that throwing of objects onto the ice surface is prevented. If problems with objects on the ice surface occur, the referees have to file an according additional report and send it to the Alps Hockey League Administrative Office. Failure of the usher service results in a penalization according to the Alps Hockey League Penalty Catalogue. Repeated incidents can cause the Disciplinary Senate to greatly increase the penalty.

§ 8 Security Coordinator

- (1) Prior to the start of each season, each club is to provide the Alps Hockey League Administrative Office with the name of its security coordinator by August 1st, of each respective season; the security coordinator serves as the contact person responsible for security matters. Should a player or official be penalized with a match penalty or game misconduct penalty in a Alps Hockey League game, where the penalty was called in error or not conforming to Alps Hockey League rules and there is a unanimous decision by the Alps Hockey League PSC, the causing the automatic suspension can be rescinded

Alps Hockey League play-offs: the Alps Hockey League regular season automatic game misconducts are reset to zero at the start of the Alps Hockey League play-offs (after the last gameday of the pick-/ qualification round).

After the completion of a game, it is at the obligatory discretion of the Alps Hockey League Disciplinary Commission to examine each incident which arose in the course of the game, to conduct the relevant investigations, and to impose additional penalties on Alps Hockey League clubs and players.

The range of punishment (game and fee-penalties) for additional penalties is laid down in the Alps Hockey League Penalty Catalogue. The observation period for previous penalties or fines is retroactive 24 month from the date of the penalty or fine (e.g. 14.12.2014 – 14.12.2016). If during this period a penalty or fine has been imposed, the penalty or fine, increase by 50% to total 150%. If during this period more than one penalty or fine has been imposed, the penalty or fine, increase by 100% to total 200%.

In cases where a player or coach changes to another Alps Hockey League Club or a foreign club, the unenforced remainder of the penalty will be suspended and must be served before the player or coach can resume activities with a domestic Alps Hockey League club.

A suspension given within any of the Alps Hockey League affiliated leagues must be served in its entirety based on the suspended games within the League in which the suspension occurred. A suspended player or coach is not permitted to participate in the Alps Hockey League or its affiliate leagues until the suspension is served in its entirety, based on the league in which the suspension occurred. The determination if a national league is affiliated with the Alps Hockey League is the responsibility of the respective national federation.

Relevant Investigations start after the end of the period of notification, with the goal set to finalize the proceedings, including the verdict until

3:00 pm the next day if the team plays the next day or,
at latest 6:00 pm the day before the next game day.

If there is no video evidence available DOPS has the possibility to suspend players only because of referee game reports, referee supervisor reports or game delegate reports. If no video is uploaded by the home team and there is a possible suspension for a player of the home team, this player will be automatically suspended for one game. Investigations of serious nature can be put "under review" until DOPS has sufficient time to adequately review the case pending with no maximum time frame.

 Determination of Sanctions

The disciplinary board shall determine the type and extent of the disciplinary measure to be imposed according to the objective and subjective elements of the offense/violation, taking into consideration whether the offense/violation was minor, serious or gross and taking into consideration whether any aggravating or mitigating circumstances exist.

When establishing whether an offense is minor, serious or gross, the following facts shall be taken into consideration: the importance of the provisions violated; the stature of the game; personal guilt or negligence, the consequences of the offense for persons affected directly or indirectly; negative effects on ice hockey; whether the offending party is a repeat offender or other unfavorable influences on the reputation of the Alps Hockey League.

A player or a coach who has a pending Alps Hockey League sanction and who transfers to another club (domestic or international) that is not part of the Alps Hockey League system before serving the full Alps Hockey League sanction, upon return to a participating club that is part of the Alps Hockey League system, shall be required to serve the remainder of his suspension before being allowed to participate in the Alps Hockey League competition.

A participating club or league that is bound by a rule of conduct laid down in the Alps Hockey League Law may be subject to disciplinary measures if such a rule is violated as a result of the conduct of one of its members, players, officials or supporters and any other person exercising a function on behalf of the participating club or league concerned, even if the participating club or league concerned can provide the absence of any fault or negligence.

§ 1 Alps Hockey League Uniform Procedure

Alps Hockey League Uniform Guidelines

Team Uniform

All players of each team shall be dressed uniformly with approved design and color of their helmets, sweaters, short pants, stockings and skates. Altered uniforms of any kinds, i.e. velcro inserts, over-sized jerseys, altered collars, etc., will not be permitted. Any player or goalkeeper not complying with this rule shall not be permitted to participate in the game.

Protective Equipment

All protective equipment except gloves, headgear and goaltenders' leg guards must be worn under the uniform. Should it be brought to the attention of the Referee that a player is wearing, for example, an elbow pad that is not covered by his jersey, he shall instruct the player to cover up the pad and a second violation by the same player would result in a misconduct penalty to be assessed.

This governs all protective equipment, including pants. Players are not permitted to tuck their jersey into their pants in such a manner where the top padding of the pant and/or additional body protection (affixed to the pant or to the Player's body) is exposed outside the jersey. The back uniform number must not be covered or obstructed in any fashion by protruding pads or other protective padding.

The jersey and socks must consist of a main color which will cover at least 80% of each part of the equipment excluding names and numbers. The shoulder cap of the jersey must either, consist of the same main color of the jersey or differentiate from the main color of the opposing teams

Numbers

Each player should wear and individual number 25 – 30 cm high on the back of the jersey, 10 cm on both sleeves and at least 7cm on the front side-upper portion. The numbers have to be in contrast to the jersey color.

Player's Jersey

Sleeves must extend into the cuff of the glove.

Player's Pants

Players' pants must be worn in a uniform fashion by all Players. The pants must be one consistent color around and throughout the leg of the pants. Pant legs are not to be ripped, cut or torn in the leg/thigh area. Under no circumstances should a Player's sock, undergarment, or bare leg be exposed through the pant. Players are permitted to alter their pants for comfort and performance-related reasons; however, the pant leg must remain one uninterrupted uniform color as to not expose the bare leg/sock in the thigh area.

Player's Socks

Each player should wear their respective number on the back of each sock in the middle of the sock in height from skate to knee, at least 10cm in height

All players are permitted to wear only the uniforms for use by the Alps Hockey League. Each team shall be dressed uniformly with Alps Hockey League approved design and color of their jerseys, pants, socks and helmet.

(1) Alps Hockey League Player Uniforms

Each member Club shall design and wear distinctive and contrasting uniforms for their home and road games, no parts of which shall be interchangeable. In cases where the same color is used in both jerseys, the main color used in one jersey must not exceed 10% of the color used in the other jersey. If a team plays with the wrong jersey color this perpetration will be punished according to the ALPS Hockey League penalty catalogue. Any concerns regarding a player's uniform (including the goalkeeper) shall be reported to the Alps Hockey League to the Alps Hockey League Hockey Operations Department.

- a) All players from each team shall be dressed uniformly with approved design and color of their jerseys, pants, socks and helmet (except of the goalkeeper, who is permitted to wear a helmet of a different color)
- b) The jersey and socks must consist of a main color which will cover at least 80% of each part of the equipment excluding names and numbers. The shoulder cap of the jersey must either; consist of the same main color of the jersey or differentiate from the main color of the opposing teams
- c) It is recommended, but not required, to have a 3rd jersey of contrasting color. The 3rd jersey will be required in the event 2 teams have jersey outlays close in color
- d) Special occasion jerseys (i.e - Halloween, Movember, etc.) are permitted as long as the outlay is sent and approved by the Alps Hockey League Management at least 30 days in advance
- e) Jerseys and socks shall be of the same main color, consisting of a minimum of 80% of the main color, inclusive of advertising color
- f) Jerseys must be worn outside of the pants. Jersey and pants must have a tied-down strapping system.

- g) Each player should wear an individual number 25 – 30 cm high on the back of the jersey, 10 cm on both sleeves and at least 7cm on the front side-upper portion. Numbers are limited to the numbers 1 – 99. The numbers have to be in contrast to the jersey color (dark number on bright jersey and bright number on dark jersey)
 - h) Each player should wear their respective number on the back of each sock in the middle of the sock in height from skate to knee, at least 10cm in height
 - i) Each player shall wear his name on the upper portion of the back of his sweater, printed 7 - 10 cm high
 - j) The clubs have to secure that the player number is also visible on the front side upper portion of any player jersey in a height of at least seven centimeters.
 - k) Altered uniforms of any kind, i.e. Velcro inserts, over-sized jerseys, altered collars, etc., will not be permitted. Any player or goalkeeper not complying with this rule shall not be permitted to participate in the game
 - l) Warm-up jerseys must have player numbers on the back with a height of at least 20 cm, and each player must wear the same number assigned to him on the official game sheet. The same applies to the sleeves
- (2) Player numbers are not transferrable. A number may only be worn in play by one player during a given season. If a player leaves the club, during the season, his number may not be re-used for another player of that club during that season.
- (3) Clubs must communicate to the Alps Hockey League Administrative Office in written form, any time before July 22nd of each respective season, their jersey, helmet, pants and sock outlay for League approval. The league clubs are engaged to send the layout of all jersey-versions to the Alps Hockey League Administrative Office before the production. The Alps Hockey League Administrative Office controls the correct design of the numbers as stated in the regulations, the correct placements of the sponsor-logos as well as the coloring in “bright” and “dark”. It is necessary that colors are used for jerseys with bright basic color as well as for jerseys with dark basic color which can be clearly allocated to the respective color definition (bright / dark). Only after the final approval of the league secretariat jerseys may be used at games of the Alps Hockey League. If the produced jerseys have a different color to the color of the layout and in the case of problems by determination of the colors by the TV-Host broadcaster, the referees, the stats people and/or the Alps Hockey League hockey operations, the jerseys have to be changed and produced new. The visiting club has to base its choice of jerseys on the home club's color.

- (4) Violations of this rule will be penalized in accordance with the Alps Hockey League Penalty Catalog (Part I). Clubs are not permitted to change the base colors of their jerseys (bright, dark) during ongoing competitions and cannot be negotiated bilateral between both teams of a game. The overview of the jersey colors (home color / second color) which will be established by the league secretary after the layout-deadline is integrative part of the procedure regulations.

§ 2 Marketing Rules

Each club must have a minimum, two different sets of game jerseys, in addition to warm-up jerseys (if desired).

- (1) Warm-up jerseys must bear the Alps Hockey League logo 12 cm x 10 cm (W x H) in size, on the left side of the chest. These logos are to be applied using patches or by printing the logos directly on the jerseys. Other jersey surfaces can be used for advertising purposes.
- (2) Game jerseys must bear the Alps Hockey League logo 12 cm x 10 cm (W x H) in size, on the left side of the chest. These logos are to be applied using patches or by printing the logos directly on the jerseys. Other jersey surfaces can be used for advertising purposes.
- (3) The drafts of jersey designs must be presented to the Alps Hockey League Administrative Office for approval by July 22nd each year.
 - a) In this context, the Alps Hockey League Administrative Office explicitly reserves the right to make corrections to the jersey and sock colors in order to ensure that the competing team's jersey and sock can be distinguished by the referee, the television broadcasters covering the games, the spectators, stats people and Alps Hockey League hockey operations.
 - b) One original sample of all jerseys and socks to be used in league play must be presented for final approval before the start of the season. In this context, it is especially important to note that the jerseys and socks must already include the sponsors' logos.
 - c) Special jerseys (Christmas, playoffs, etc.) also have to be presented for approval before being used in Alps Hockey League GameBook Part A §7 apply analogously to such jerseys and socks.
 - d) Objections will be communicated to the club in question along with a request to remedy the problem within a specified period of time. Should a club fail to remedy the problem by the time the specified period elapses, the club will be penalized in accordance with the Alps Hockey League Penalty Catalog.
