

Doping Prevention Plan ICE HOCKEY

Dear athletes, Dear coaches, Dear staff-members,

since 1.1.2021 the new Anti-Doping Federal Act (ADBG 2021) is in force, which provides for **mandatory doping prevention measures** in Austrian sports, in addition to some other innovations. In coordination with the Austrian Ice Hockey Federation (ÖEHV) and the Ice Hockey League, a doping prevention plan was developed based on two main pillars:

1. multimedia learning platform aktiv.nada.at

→ All members of the national teams (starting with U17) as well as Ice Hockey League clubs - including coaches as well as support staff - are obliged to complete one of the following eLearning courses:

- "License for Athletes": <https://aktiv.nada.at/enrol/index.php?id=50>
- "License for Trainers": <https://aktiv.nada.at/enrol/index.php?id=51>
- "License for Athletes": <https://aktiv.nada.at/enrol/index.php?id=71>

ENGLISH!!

For help registering or getting started with the course, please see the instructions (<https://www.nada.at/de/service/download-center/docdown-info-material-LJ5bwwvqvLCx2>)

Once the course and the subsequent test have been successfully completed, there is the option of calling up a confirmation (certificate). This **does not need** to be submitted as the progress is visible in the system anyway. Please note that the certificate is valid for one year. After one year, the system automatically prompts users to complete a knowledge check. If all questions were answered correctly, the certificate will be extended for one year. The course only needs to be (partially) redone if one (or more) questions were answered incorrectly.

2. workshops

→ In addition to the eLearning courses, workshops for the **members of the national teams (starting with U18) as well as Ice Hockey League clubs** - including coaches as well as support staff - have to be implemented **every 2 years**. To make an appointment, please contact the Information and Prevention Department of NADA Austria:

- David Senft, BSc BA MA - Information and Prevention Staff, Medicine.
Phone: +43/1/505 80 35 14 | E-mail: d.senft@nada.at
- Michaela Gschaider, Bakk. MSc - Staff member Information and Prevention, Medicine
Tel: +43/1/505 80 35 14 | E-mail: m.gschaider@nada.at

With the best wishes for the new season remains

the team of NADA Austria
We protect the clean athletes!
